Subject Trout Unlimited AOC

Here is a copy of the AOC.

Trout Unlimited AOC.pdf

As you may remember, I was out of the office on paternity leave starting July 7, and returned about September 8. Matt Cohn handled this while I was out, and since he was familiar with the negotiations, kept it until Brent Feuell of HQ got things signed the first week in October. I got this back when Matt left on extended leave the middle of November.

For some reason, we never got a complete package of what was signed. So, I've had to piece things together, including signatures.

I have a copy of the workplan from before I left, but am trying to figure out if you and Matt or anyone else made changes while I was gone.

I haven't received a workplan from you or Marty since I've been back, only the action memo and the EE/CA.

Do these workplans look familiar? These are all I've got.
